StrayDogs Training
BETTER BEHAVIOR STARTS WITH BETTER COMMUNICATION

POTTY TRAINING STARTS WITH ROUTINE

Clear timing. Consistent routines. Less guessing.

01 When to Go Outside

- **First thing** — As soon as you wake up.
- **After eating** — Within 30 minutes or sooner.
- **After drinking** — Within 30 minutes or sooner.
- **After playing** — After any activity.
- **After napping** — As soon as they wake up.
- **Leaving home** — Before you leave.
- **Returning home** — Especially if you've been away an hour or more.
- **Bedtime** — Right before bed.

02 Every Potty Trip

Go outside → **Use a leash** → **Praise when they go**

Keep potty trips simple and consistent.

03 Evening Routine

Finish meals 3 hours before bed. Keep fresh water available.
Take your dog outside right before bedtime.

04 What If They Don't Go?

Bring them back inside
↓
Supervised tether OR Kennel time
↓
Try again in 5–30 minutes

No unsupervised freedom until they potty.

05 When Are They Potty Trained?

30 DAYS
Without accidents.
Our benchmark for potty training reliability.

5–7 MONTHS
Common age range.
Some dogs take longer. Every dog is different.

When in doubt, take them out.

Routine over guessing. Progress over perfection.
